MINING, BUSINESS AND STOCKS

WEEK'S OPENING ON THE EXCHANGE

Market Was Fairly Active and Stocks Remained Comparatively Firm.

DALY-WEST SELLS AT \$13.

New York Holds Its Own and Finds Takers at 24-May Day and Silver Shield Strong.

All things considered, the week opened on a fairly active exchange. The first stock to leave its moorings was Con. Mercur, which dropped a small block of 50 shares at 421/2. Then the brokers passed down the line to Dalys West, and after stopping long enough to take on 25 shares at \$13, proceeded to do business in May Day, which maintained a fair degree of firmness and sold freely at 32, with a slight upward tendency at the close. Sacramen. to went at 10%, while Silver Shield, concerning whose condition reports indicate a prosperous outlook, made sales above 12, a total of 7,000 shares changing hands at this figure. Beck Tunnel Con., which closed the week with sales at 10 cents, could not be had under 14. while 81/2 was freely bid for the stock. Little Chief did business at 2%, and New York, despite desperate efforts to cover shorts, kept a stiff upper lip and found its lowest figure at 2314.

On the open board the only sale made was in Daly-West, which dropped a block of 100 shares at 212

block of 100 shares at \$18. The closing figures were as follows: TODAY'S QUOTATIONS.

216 D. F. Walker Block. MARYSVALE PLACERS.

Messrs, Longley and Durkee Making a

Good Thing Out of Them. Special Correspondence

Special Correspondence.

Marysvale, Utah, Nov. 19.—The placer districts surrounding Marysvale have been known for years, but it is to the credit of E. M. Longley and Miles Durkee that this ground has been opened up. Today the gentlemen have in operation a long line of sluice boxes, and from present indications the clean-up will prove one of the greatest surprises the "natives" ever had. It will teach them that idleness and the natural back capping element which has surrounded this district, will be removed rounded this district, will be removed by the energetic activity these par-

The trial of Ben Reynolds who shot Jack Lee, some months ago, has been postponed from time to time.

tles have displayed, under adverse cir-

The general mining conditions in this section are at present at a standstill. Reports are out that the Franklin Mining company is about to resume. This section is enjoying a fine Italian climate at present.

Southern Utah today stands preeminent as one among the best un-prospected camps in the state.

COPPER STILL FIRM.

Continued Demand from European

Consumers Keeps it Up. The continued demand from European and Asiatic consumers neld local prices on all grades of American copper nteady at the recent heavy advances, but no further gains were recorded, says the New York Commercial. While the foreign purchasers did not appear to have satisfied their requirements, they were more conservative in de-manding nearby deliveries. From a wild pandemonium the market quieted down into a reasonable trading center

with the lake grade still selling 14.871/4, while electrolytic continued to bring 14.75 and casting 14.621/4.

Under heavy profit-taking, the London market lost part of its recent gains in standards, spot prices declining 12s 6d, while nearby oliveries lost 10s. selections, however, advanced 10s £70 l0s, a new high record for this r. The high export quotation of £6s lon on the electroyitic grade, now sked by all the principal producers in his city, did not deter the Continental brass founders and electrical equipment makers from placing large orders in this as well as in the casting grades. Exports from the Atlantic ports for the first half of the month are very disappointing, aggregating only 8,317 tons. It is generally believed, however, that the shipment of the orders recently booked by Russian, Japanese and Chi this amount considerably before the end Arrivals at Baltimore from Loudon yesterday totalled 702 tons. Though the European statistics for the first half of November show a visible supply of 14,460 tons, compared with 12,750 tons at the corresponding time last year, the continuance of the orders from foreign consumers shows that their needs are still great and will probably cause another advance before the end of the year.

THE PRAIRIE BELL.

Promising Tintle Property to be Devel oped-At the Orient.

The Tintic Miner says that devel ment is soon to begin on the Prairie Bell group of claims, one of the most promising groups in West Tintic. They have a vein of ore opened to a depth of about 70 feet, and have drifts on the vein for 100 feet. The vein has shown values of over 200 ounces silver, and a high per cent in lead. There is nearly a shipment of high grade ore now holsted and at the shaft. The development work this year should place this property on a paying basis.

perty on a paying basis.

The Orient Mining company begins work with good prospects of continuing developments all winter. They have an excellent showing of ore, and it should develop into a bonanza equal

the Scotia mine of years past.
J. M. Wheeler and his associates have commenced work on the Blue Jay group of claims in the near vicinity of the Orient and Scotia mines in West Tintic. They have a very large group of claims, and will spend considerable money in their development.

RICHES OF THE DEWEY. Thunder Mountain Mine Produced \$16,-

000 During Month of October.

E. H. Dewey, manager of the Dewey mine at Thunder Mountain, has rethe 10-stamp mill, says the Boise Statesman. This, though larger than the average clean-ups of the mill, does not represent the entire production. It was found that the mortars were leak-ing, and Superintendent Haug has written that he has five tons of ore that leaked out and which is being worked over. The gold in this, added to the bullion already sent in, will run the returns for the month up close to \$16.

The record for the month of Octo-ber was 1,240 tons of ore put through. The average battery sample was \$15.17 a ton and the tailings averaged \$1.74. That shows 88.6 per cent savings, or a total of \$16.666 for the month. Heretofere the bullion returns have run a little better than the saving indicated by the assays, and the loss for October is probably accounted for by the leak-

from the mortars. During the first quarter of the present month the mill worked 340 tons showing an average value of \$12.96. The mortars are now being rivited and it will require a week to repair each one. That will reduce the product for

November considerably.
The mine continues to improve, but the reported discovery of very rich ore in the incline was untrue.

NOW FOR SHIPMENTS.

Columbus Con. Connected Up and Ready For a Vigorous Campaign.

Supt. A. O. Jacobson of the Columbus Concelldated mine at Alta, is authority for the statement that on Saturday night the Howland and Columbus tun-nels were connected up, thus complet-ing connections with all parts of the property, and making possible increas-ed shipments. Now that the coast is clear, it is the intention of the company to run the mill to its full capacity of 125 tens daily, and also to make heavy Tony Jacobson goes out to the mine tomorrow for the purpose of installing a third shift prior to a most vicorous

SHIPMENTS FROM NEW YORK BONANZA

Park City Company Will Inaugurate Them During the Present Week.

ORE RUNS WELL IN SILVER.

Property Has Passed the Prospective Stage - Will Become an Important Producer.

Special Correspondence.

Park City, Nov. 20 .- Shipments of ore will be inaugurated this week from the New York Bonanza. About a carload of first class and another car of second class ore has been holsted to the surface, while on the 500-level there is probably as much more stored.

The company is putting in timbers at the bottom of the 200-foot winze, sunk from the 400 level, where the vein recently encountered shows up splendidly. From this point it is the intention to

commence stoping, and while the extraction of are progresses the winze will be continued to the deep.

While no official figures have been given out, it is believed the shipment to be made this week will net the company anywhere from \$40 to \$50 to the ton. The first class carries high values in silver. That the New York will become one of Park City's important shippers of the future, there no longer seems any doubt; it has passed the prospective stage. The vein shows a width of about two feet at the bottom of the winze and has straightened almost to perpendicular.

Coconino Copper Mines. Special Correspondence.

Kanab, Nov. 19 .-- A business move of some consequence to this locality is the resuming of operations at the Coconino copper mines, on the Buckskin mountains. The company has been reincorporated and is now putting in new machinery with a view to the trial of a different process for the treatment of the ores, and it seems to be quite san-

STOCKS OPENED **ACTIVE AND HIGHER**

Various Leaders Taken Hold of And Pushed One After Another To Higher Level.

THEN PRICES RECEDED SOME

Healthier Undertone Developed and Was Followed by Resumption Of the Advance.

New York, Nov. 21 .- Stocks opened active and hinger today, but with few exceptions and the market gathered strength and breadth as different leaders were taken hold of and pushed successively to higher levels, the most urgent demand developing in the lower grade specialties, and high priced industrials. Among the noteworthy advances were three points in Nashville, Chattanooga and St. Louis, two in Rock Island preferred, and one in Union Pacific. St. Paul, Louisville & Nashville, Brooklyn Transit and Sugar. A great variety of other stocks showed gains of a point or more. The demand slackena point or more. The demand stackened and prices receded. St. Paul, Louisville & Nashville and Sugar lost their one-point gains and a number of the market leaders sold a fraction lower than Saturday. Intimations that a decision in the Northern Securitles suit would be delayed seemed to affect the market. Trading became very dul

would be delayed seemed to affect the market. Trading became very dull.

Bonds at noon were firm.

A healthier undertotne developed in the early afternoon, and there was a general resumption of the morning advance. Bull operators bid up the principal grain carriers, and when they commenced to waver on the traders' realizing, took hold of United States Steel and Amaigamated Copper, as sustaining factors. Large blocks of United States Steel preferred and Alamgaed States Steel preferred and Alamgamated Copper were taken at advances of 1 and 1½ respectively, and there was enormous buying of United States Steel bonds, one block of \$350,000 changing hands at 90. Other metal stocks stiffened decidedly, smeltinfi rising 1 and Pipe preferred nearly 3 points.

Father Agius' Mission is Peace.

New York, Nov. 21.-The Most Rev. Ambrose Alfred Agius, recently ap-pointed apostolic delegate of the Catholic church in the Philippines, who has just arrived here on his journey to the islands, declares his mission to be one islands, declares his mission to be one of peace and good fellowship. "I do not come," he added, "as a politician, but shall devote my energies to the spiritual welfare of the people of our faith. I expect to arrive in Manila early in January."

LOCAL MARKETS.

The Thanksgiving markets are opening this week with the usual array of good things, and with plenty of poultry, albeit turkeys are high priced on account of their being much less in quantity. Turkeys are scarce all over the country, owing to unpropitious weather in some quarters, and scarcity weather in some quarters, and scarchy of feed in others. However, there is no trible in getting a turkey if the purchaser is willing to pay the price, which is 25 cents per pound retail in the markets, while some suburban growers are holding out for 27% cents. Ducks are much cheaper, and will probably be used more than ever this year for that reason. year for that reason.

There are no changes in meats, and flour goods continue the same. Lemons are on the rise, lettuce is dearer, and cranberries are 10 and 12½ cents per quart. Idaho apples have gone up 25 cents per box. There are no more Utah tomatoes, no more persimmons. East-ern eggs are a trifle cheaper. The prices obtaining in the markets today are as follows:

WILL BE TWO SKELETONS IN NAN PATTERSON TRIAL

New York, Nov. 21 .- An element of uncertainty growing out of reports of possible changes in the make up of the jury was the principal feature of the opening of the second week of the trial in filling the jury box but at the last moment Foreman Hendricks asked to be excused from service because of the severe illness of a member of his family. family.

When the trial was resumed today Justice Davis declined to excuse Fore-man Hendricks and Asst. Dist. Atty. Rand at once began to outline the case

of the prosecution.

During the trial two skeletons, one of a man and another of a woman, will of a man and another of a woman, will be brought into the courtroom to be used in demonstrating the theories of the attorneys. One of the skeletons will be used by the prosecution and the other by the defense.

There will be no wearying testimony of handwriting experts at the trial though there will be long periods during which evidence will be introduced to show the particular course of a bullet at close range. A blackboard.

bullet at close range. A blackboard, diagram and the human skeletons will be used in this connection. Whether Miss Patterson will go on the stand to testify in her own behalf has not been decided.

Lawyer Daniel O'Reilly, one of the the attorneys for the defense, an-nounced today that Miss Patterson's former husband, Louis Martin, from whom she was divorced several years ago, would appear during the trial. Martin is a hoter clerk and resides in

Washington. Hyman Stearn, a pawnbroker, who has bene spoken of as one of the prin-cipal witnesses for the prosecution, is seriously [il. He is the man who appeared before the grand jury and posi-tively identified the revolver with which Young was shot as one which had been sold by him the day before the tragedy occurred.

The dull routine which always marks the preliminary stage of a trial in a zapital case has been interspersed with several incidents closely bordering or the sensational and it was expected that big crowds of spectators would clamor for admittance to the court room when the trial was fairly under

MRS. J. R. NICKUM DEAD.

Was Brained With an Axe and Otherwise Terribly Mutilated,

Topeka, Kas., Nov. 21.-Mrs. J. R. Nickum, who was brained with an axe and otherwise terribly murilated early Sunday morning at her boarding house on East Fifth street, is dead. She was unconscious when discovered and re-mained so until the end, The case is the most mysterious in the

criminal history of Topeka, Over \$200 cash in the dresser of her room was untouched; nor were any other valuables in the house missing. Her body was horribly mutilated, bearing the evidences of a "Jack the Ripper" work. There is not the slightest evidence of who did the deed and the police have arrested no one.

Mrs. Nickum has been married twice and divorced from both husbands, the whereabouts of whom are unknown.

TREATY WITH SWITZERLAND One for Arbitration Signed by Secy. Hav.

Washington, Nov. 21 .- Secy. Hay and Mr. Probst, the Swiss charge d'affaires, today signed an arbitration treaty on behalf of the United States and Switzerland. The treaty follows the lines of the American-French treaty.

COLUMGIAN BONDHOLDERS. Want Roosevelt to Arbitrate Claims Against Panama.

London, Nov. 21.A movement is on foot to get President Roosevelt to arbi-trate the difference between Panama and the corporation of foreign bond-holders in regard to the Colombian debt. A meeting of the Colombia com-mittee of the corporation has been sum-moned to consider the best means of remoned to consider the best means of re-covery from Panama of a portion of the \$10,000,000 paid by the United States in connection with the canal and it is proposed to call a public meet-ing of the Colombian bondholders for the purpose of requesting President Roosevelt to arbitrate as to the proportion of this amount the new republic ought to pay toward the liquidation of Colombin's debt.
